

From Ideas to Innovative!

A.P. Defence Ltd. is an innovative firm focusing on designing and providing unique **Training Equipments** and **Facilities**, to be used in the on going war against terrorism. We plan, design, manufacture and install everything that is necessary for the establishment of HLS (Home Land Security) Academies, Shooting Ranges and Firearm Schools.

Our goal is to provide those who fight against terrorism with the best solution available. All of our solutions are 'Battle-Proven'!

A.P. Defence Ltd was founded in 1996 by former leading security officers from elite IDF unit, Shin Bet, Ministry of Justice, and Ministry of Transportation. Our team includes inventors and HLS specialists, who take advantage of their unique training and years of experience as both warriors and security technological experts. We lead a team of designers, engineers, installers and consultants.

Together with you as our client we will explore and understand your needs, and then develop and offer the unique solution for you in both equipments and facilities.
